THE BENEFITS OF OLIVE OIL. MESSES. EDITORS-I am often asked "What is the benefit of your scientific paper?" I have been a constant reader of the "Scientific Ameaid, so considered, to be found in this vicinity, but all to no purpose. At last I was beso't paid, 3c; unpaid 5c. to employ a young physician to try his skill, and about the same time I noticed in paid 6c; unpaid 10c. Nos. 37 and 38, Vol. 8, "Scientific American," articles on the subject of Olive Oil, and its good effects upon the human system but did not mention it to the physcian, who yet had not prescribed anything for me. In a few days after this I requested him to do something for my relief, if he cou'd: he ordered me to take half a pint of olive oil, and two teaspoonful of the essence of anise, mixed together, and to drink this at stated times. Considering well upon what I had read in your valuable paper, I fell in with his prescriptions; a week from that time he ordered a second dose of the same. Since using it I Small newspapers and periodicals—pub-have not experienced the slightest pain, unless lished monthly or oftener, and Pamphlets of I exercised too severely, which sometimes 16 octavo pages or less—when sent in pack-produced a little but only momentary pain. ages weighing at least 8 oz. prepaid, \$c. an Some physicians told me I had the liver complaint, others consumption, but the young physician spoken of did not agree with any of them, and judging from what he said, and the efforts of the oil, -he was right. Now, I would ask, could there be a more simple and safe remedy than olive oil! The doctor says he finds it a very useful article in his profession, and that the public are not aware of its good healing properties. Scientific American.

There is a cool assurance, and cutting impudence in the following, quite character-istic of the source from which it eminates.

From the New York Herald.
FOREIGN MISSIONS AND JAMES GORDEN BENNETT.
The organ of the spoils-Cabinet at Washington has not directly made the assertion, but adopted the coinege of others, that Mr Bennett, proprietor of this journal, had made an application to the spoils-Cabinet for the mission to France. It is now necessary to say something on the subject.

We have made some inquiry into the matter, and have ascertained to our perfect satisfaction that it is entirely untrue. Mr. Bennett has not made any application to the spoils-Cabinet of any office for himself or others, except one, and that was, simply asking the administration, if it were so willing, to bestow letter presented to the Secretary of State on this subject, puzzled this functionary exceedingly, even though it had received the endorsement of the President. Indeed, the Pres-

This, we believe, is the extent of the applications of Mr. Bennett for office under the that since he has seen the newspapers com-

gether I have employed my time pleasarily ter into consideration, and to immediately here for Jeddo in three days. The length of mation, has brought the subject vividly into the matter in the newspapers, on false inforsign, and make straight across the Pacific. I the mission to France, as is a French redh.ve a mighty hunger to get back to Civiliza- republican propogandist for the mission to States duty free, until February next. for the mission to Naples, or as a Jew and abominations, and I suppose the Japanese clerk from Frankfort--becomes rich in Wall

to collect information, double the amount which the Government give to their functionaries. But he thinks, after mature deliberated by the Masonic bodies of Ohio at their and from the appearance of things in the East and West of Europe, he is at least much better qualified in every point of view for fillng the American embassy in Paris, than a quiet, indolent, respectful country Judge of Virgin ia is, who though he knows the value of oysters and the use of cards, knows nothing of the diplomatic relations of Europe, and who understands not a word of the French or any other modern language but his own. Mr. Mason, it is said, will not take the office; but if he should, we are very sure that he will not remain in it much longer than a year-

just sufficient to enable him to pocket the outfit and salary of eighteen thousand dollars. The Senate, we are confident will recall him, and a great many others besides, who are utterly unqualified for the positions they occupy in the present ominous relations of the world.

Such is the amount of our information on the French mission in connection with the name of Mr. Bennett, which has been bruited about so much in the newspapers. We have no doubt, however that he will immediately prepare and forward an application to the spoils Cabinet for this mission; and, in anticstump orators throughout the country, to able. take up the important question and discuss the merits of the applicant, in order to enlighten the Cabinet on the matter to be brought before them, and to determine the mind of the President when the issue shall be

We, therefore, announce with great modesty, but with equal formality, that Mr. James Gordon Bennett, the editor and proprietor of the New York Herald, is now an applicant ties. make out all the necessary papers and present them in due form to the spoils Cabinet, for the solution of this important question. We therefore call on our cotemporaries, here and elsewhere, to fire away; our dependence is on the good sense and patriotism of the Presi-

Rates of Postage.

It is not easy to keep always in mind the required amount of postage stamps on letters, rican" for five years, and have not allowed a &c., under the laws now in force. The Ohio single number to escape without pursuing its State Journal has procured and published the contents; for myself I can say that I derived following convenient table of rates, which considerable personal benefit from it early gives the information required at a glance, last Spring. I was attacked with a pain in and which we present to our readers, with my stomach, a little on my right side, which the suggestion to cut it out and put it in some so effected me that I was scarcely able to convenient place, to save the trouble of askwalk about. Austria and Russia have recalled their subjects from the Turkish service.

The full moon rose bright over the eastern woods as, with the north star straight ahead, circulation in our country has warded off the manifested in the discovery of gold in California, and its woods as, with the north star straight ahead, we bade adieu to the embryo city of Brookton.

The discovery of gold in California, and its woods as, with the north star straight ahead, circulation in our country has warded off the exhibition we copy from the Republican:—

The award of the committee did not give entire satisfaction. Many of the "out-siders" would have taken place some time ago, but second to Miss Simerel, and the third to Miss the discovery of gold in California, and its Gilmore. In relation to this branch of the

with the determination to get votes-honestly if they could, but to get votes. How they have succeeded may be seen by the result of the last election. When the smoke of battle cleared away, the Temperance party, who would scorn the usual mode of electioneering were seen broken and scattered in the rear of the victorious party; beaten, it may be, but far from being conquered. It is to be hoped they are a little wiser than before and that this defeat may learn them a lesson. REASONS FOR TAKING A PAPER .- The In the Eastern states, in the ascendant

above caption is at all times suggestive to party, there is a bitter strife. The Adminevery reflective mind. It requires no depth istration has tossed a bone to the New York of thought or nicety in logic to show to any Democracy, which has proved, literally, a one that reasons for taking papers are "as "bone of contention." The end of this salts are not sufficiently blended with it, and sometimes the coolness of the nitre will be the outset of this article that no one will at-
